

Notes Plug-In V1.0.0

The Notes Plug-In displays General notes for an account or stock record, if any exist, when the user enters an account code or stock code in the following types of transactions:

SIN SOR SQU SRI SJI SCR SJC PCR POR PQU PJC PPI PIN

Changing the Transaction types

The types of transaction that the Notes Plug-in pops up for can be changed in "Notes_Plug_Switches.ini" file.

```
[ACCOUNT CODE]
EnableGeneralNotesFor=SIN SOR SQU SRI SJI SCR SJC PCR POR PQU PJC PPI PIN
EnableDatedNotesFor=SIN SOR SQU SRI SJI SCR SJC PCR POR PQU PJC PPI PIN
```

```
GeneralNotesMaxLines=99999
DatedNotesMaxLines=100
```

```
[STOCK CODE]
EnableGeneralNotesFor=SIN SOR SQU SRI SJI SCR SJC PCR POR PQU PJC PPI PIN
EnableDatedNotesFor=SIN SOR SQU SRI SJI SCR SJC PCR POR PQU PJC PPI PIN
```

```
GeneralNotesMaxLines=99999
DatedNotesMaxLines=100
```

The number of lines displayed can also be restricted. This may be useful for restricting the number of dated notes displayed.

Installation

Unlock the Exchequer COM Toolkit

Copy the Notes.exe, Notes_Plug_Switches.ini, xarraydb.ocx and Msvbvm60.dll to the Enterprise directory, from the Notes zip file.

Then copy ENTCUSTM.INI to the Enterprise directory if it is not already there, else edit the existing one to contain:

```
[COMClients]

l="d:\Entrprse\Notes.exe"
;Edit the above line to run Notes.EXE
```

This will make Enterprise start Notes.exe from the Enterprise Directory.

When enabled it will ask for registration details if not the "Electric 'R' Us" company. Please ring Comtek Accounts on 01945 464854 for registration.
