

Debt Letter/Statement Plug-In V1.0.1

The Debt Letter/Statement Plug-in simply adds extra criteria to the Debt Letter/ Statement selection in Exchequer Enterprise. When enabled, after selecting the normal selection criteria, in Enterprise, an extra window is displayed. This window allows the user to exclude accounts with a balance above or below a certain level:

This allows accounts with very small balances to be excluded from a debt/letter statement run.

Installation

Copy the StatementFilter.exe and Msvbvm60.dll to the Enterprise directory, from the Notes zip file.

Then copy ENTCUSTM.INI to the Enterprise directory if it is not already there, else edit the existing one to contain:

```
[COMClients]
l="d:\Entrprse\StatementFilter.exe"
;Edit the above line to run StatementFilter.exe
```

This will make Enterprise start StatementFilter.exe from the Enterprise Directory.

When enabled it will ask for registration details if not the "Electric 'R' Us" company. Please ring Comtek Accounts on 01945 464854 for registration.
